

Classrooms / Laboratories

Classrooms are the next priority on the list. Our goal is to provide a clean environment for learning and teaching. Classrooms are cleaned on a daily basis and as with restrooms are typically cleaned on the 2nd or 3rd shift. In some instances the classroom appears dirty and in disarray after just one or two classes. Chalk, erasers and/or markers are provided for each classroom. Extra markers are at the Administrative offices of each department.
