Metal halide
Mercury vapor

These types of bulbs can be dropped off at the EHS Department in Parsons Hall, contact the Service Center at 351-2446 for questions, or submit a [TMA Work Request](#) to schedule a pick up.

Off Campus

Many counties have Household Hazardous Waste recycling programs. These services are often provided to County residents free of charge. Check your resident County website for additional information.

Batteries

On Campus

As a part of the Universal Waste Management program at the University of Northern Colorado, the Environmental Health and Safety Department (EHS) recycles a variety of used campus batteries.

The types of batteries that are accepted through this program are:

- Alkaline
- Lead acid
- Nickel-cadmium
- Lithium ion

Small volumes of batteries, for recycling, can be sent through campus mail to the Environmental Health and Safety Department at Parsons Hall. The Campus Mail Number is 57. For larger volumes of battery recycling contact the Service Center or submit a [TMA Work Request](#) to schedule a pickup.

The University of Northern Colorado will accept vehicle type batteries from *on or off-campus* sources. These vehicle batteries may be dropped off at Parsons Hall in the Transportation Services Department.

This recycling is for campus generated batteries only. For off-campus generated batteries please refer to the Off-Campus Battery Recycling information below.

Off Campus

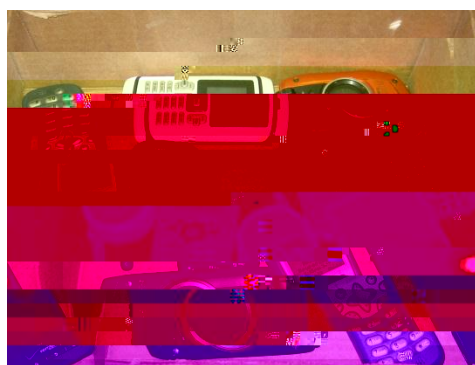

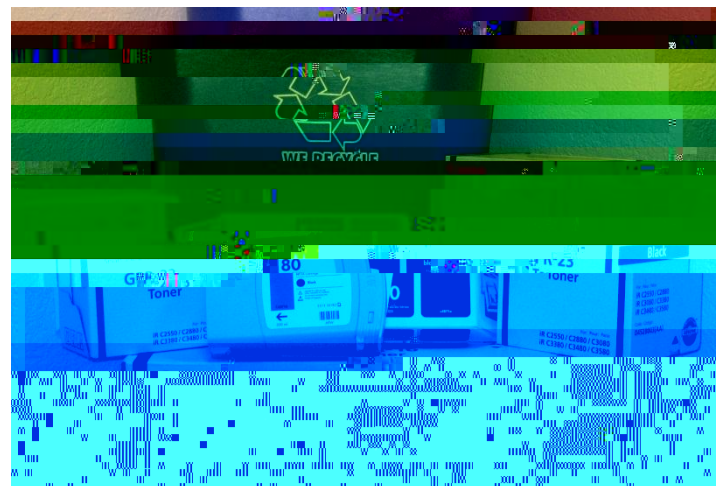

Batteries that are generated off-campus can be recycled through your residential County Household Hazardous Waste Center.
