(For Promotion Stipend see 3701)

Promotion provides a mechanism for the recognition of contributions of faculty members to the mission of the institution and its reputation as well as professional contributions to the advancement of the state of the art and to society at large. While judgment of potential contributions must necessarily be based on past performance, it is expected that persons achieving a given rank shall continue to take initiatives which are valued by the institution.

Although the administration of promotion policies at the University must be equitable, it must not be perceived as implying identical standards for types of contributions by each individual faculty member. The promotion policy must facilitate the recognition of diverse potentials which harmonize individual competence and initiative with institutional needs and values. The promotion policy attends to both qualitative and quantitative contributions.

Promotion decisions are based only on the outcomes of comprehensive review as described in 2-3-801.

Academic or professional qualifications shall satisfy the minimum qualifications for each rank as established in 2-3-302 Rank Requirements and 2-3-901(1) Academic and Professional Qualifications.

Relevant promotion criteria shall be discussed by the department chair/school director/program coordinator with each faculty member in their school/department/program periodically to ensure that each member is cognizant of program area performance expectations. A school director shall engage in this process as follows:

- (1) If the school director is in the same discipline as the program area, they shall discuss these matters with each faculty member; or
- (2) If the school director is not in the discipline of a program area, they, together with someone from that program area, shall discuss relevant promotion criteria with each faculty member.

2-3-01(2) P16

The approved program area evaluation criteria (see 2-3-801) for the relevant promotion shall be the sole basis for promotion decisions.

2-3-01(3) P16

The decision to promote or not to promote is determined by the outcomes of evaluation in the comprehensive review (see 2-3-801). In what follows the requirements are individually necessary and jointly sufficient. That is, the evaluatee must satisfy all of the requirements listed in order to get a
